About Us

Amos Avery, Principal Consultant, is a degreed Mechanical Engineer with many years of mechanical design and product development experience. As a nine year veteran of Walt Disney Imagineering involved with the multi-faceted engineering of robotic animatronics technology, his God-gifted creative talents are measurable. He is skilled at the use of CAD tools and digital manufacturing technologies. He is also intelligent, a patient teacher, and a very swell guy, but not a *cad**.

**cad* (kād) *n.*
 A man whose behavior is unprincipled or dishonorable.
